

115FW ENVIRONMENTAL COMMITMENT STATEMENT

At the 115th Fighter Wing, protecting the environment is one of our highest priorities and will be a major factor in decision making. The Wing is dedicated to continual improvement of our processes to prevent and reduce waste generation. The Wing will maintain compliance with federal, state, and local environmental laws and regulations, Executive Orders and U.S. Air Force Instructions; and support AFD 90-8, the ESOH Policy for the Air Force.

Fighter Wing activities include operation and maintenance of F-16 Fighter Aircraft with the support of corrosion control, aerospace ground equipment, vehicle maintenance, administrative functions, and facilities maintenance. In all the Wing's activities we will seek to:

- ◇ Promote the conservation and sustainable use of natural and manmade materials
- ◇ Prevent pollution and minimize waste
- ◇ Build environmental risk management into all policies, programs, and missions
- ◇ Integrate environmental information into all levels of management
- ◇ Achieve continuous improvements in environmental performance over and above legal requirements
- ◇ Work in partnership with all stakeholders to promote waste reduction

The 115th Fighter Wing ESOH Council will establish and track environmental improvement by setting objectives and targets that are reviewed at least annually.

The 115th Fighter Wing has achieved an enviable environmental record within the Air National Guard. Through continued emphasis on being good stewards of the environment, we prove that we are good neighbors to the City of Madison, Dane County, and the State of Wisconsin. This environmental commitment statement is available to the public through public notices such as posting on the Wing's public website.

ERIK A. PETERSON, Col, WI ANG
Commander
